

Water Song

*this dream was heard along with these mages -
as if it was a biblical reading or psalm being sung.*

Those many who wandered about searching -
Found the green hills shook with joy,
As the water moved upon them
Sweeping from them cares
While about them swirled music.

Their faces in music swirling
Flowed about them -
“so la - las”
Swirling among them -
“so lo - las”

Until they became the music-water
Faces became the water song
The wonder of their being
And all was right with us -
As the mountain sang the song
Of the ancients.
